Nuclear Power

INDEX VOLUME 3

JANUARY — DECEMBER 1958

ARTICLES

AEA 4th annual report 397
AEI Aldermaston laboratories 121
APPR fuel elements 110
Atoms for peace exhibition preview 415
Bellows expansion joints—Engineering Appliances Ltd 607
Beryllium fabrication—Tube Investments Ltd 559
Beryllium handling 112
Beryllium monitoring 549
Boron steel for control rods—Hadfields Ltd 330
Bradwell—Goliath crane in action 234
Brazing BSD tubing—Delapena & Sons Ltd 504
Britain's power goal 402
British export research reactors—specifications 410
British power stations—progress illustrated 404
British power stations—specifications 408
Brussels fair 280
Chapelcross—special issue July
Chapelcross—industry's contribution 313
Chapelcross power station 304
Chemical & Petroleum Engineering Exhibition 282
Corrosion and heat resisting steel fabrication 222
Creep testing—General Electric Co Ltd 75
Data-handling system for Capenhurst—Sunvic Ltd 435
D.C. amplifiers for reactors 275
Demonstration radiation monitor 129
Dounreay fabrication problems 359
Dust cyclones, miniature 30
Electrical process control 98
Electrolytic polishing—Electropol Processing Ltd 369
Euratom prospects 17
Fast neutron monitor—portable 187
Fission product precipitators—Dowty Nucleonics Ltd 119
Fleck committee no 2—report 71
Fluid density measurements by gamma radiation 328
Flux distribution measurement in power reactors 171
Fuel reprocessing 69
Future of atomic energy 401
Future for nuclear power 580
Gas ionization neutron detectors 160
GEC nuclear research facilities 236
Geneva Conference—1958 special issues September, October, November
Geneva Conference—
Advance information 374
Chemical engineering developments 490
Conference highlights 468
Controlled thermonuclear fusion 486
Discussion—Boiling water reactors 553
Future of the gas-cooled reactor 483
Economic aspects 541
Exhibition preview 415
Isotope application 496
Metallurgical aspects 477
Nuclear ship propulsion 535, 588
Nucleonic instrumentation 499
Power reactors 471
Reactor physics 494
Research and test reactors 546
Graphite structure at Calder Hall 58
Heat exchangers, manufacture of 213
Heat extraction in power reactors 266, 323, 363, 439
Hot test loop, dismantling 108
Hunterston construction 368
Industrial irradiation facility—Metropolitan-Vickers Electrical Co Ltd 331
Industry's achievement 403
Instrumentation—special issue April
Instruments, Electronics and Automation Exhibition 180
Instrumentation trends in nuclear stations 157
International symposium on nuclear electronics 530
Isolating valves, gas—James Gordon & Co Ltd 284
Italy and Britain 406
Lathe for Dounreay—J. Evans & Son (Portsmouth) Ltd 285
Liquid metal systems, mass transfer in 53, 101
Liquid scintillation counting 585
Magnetic memory scaling system 186
Nondestructive testing for nuclear plant 224
Nuclear heat utilization symposium 64
Nucleonic thickness gauging—Baldwin Instrument Co Ltd 29
OEEC reactor survey 377
Physical instrumentation of a nuclear power station 152
Physical Society Exhibition 174
Pressure vessels, manufacture of 210
Printed circuits 23
Pulse analysers, automatic read-out system for 19
Radioactive metals laboratory—Metropolitan-Vickers Electrical Co Ltd 502
Reactor instrumentation systems 170
Reactor test loops—Introduction 260
Design factors 318
Testing and commissioning 354
Obtaining the results 431
Reactor simulator—English Electric Co Ltd 123
Remote handling equipment—J. Evans & Son (Portsmouth) Ltd 285
Rolling mill for French CEA—Albert Mann's Eng Co 606
Scaling and coincidence circuits 595
Scintillation neutron counters 166
Ships—an authoritative British view 11
Silicon transistor manufacture—Texas Instruments Ltd 558
Simulator, power reactor—English Electric Ltd 123
Sydney Symposium 378
Telemetering systems for power reactors 6
Telemetering systems—buyers guide 8
Titanium for chemical plant—Imperial Chemical Industries Ltd 435
Tube cleaning equipment—Vacu-Blast Ltd 436
Turbomachines for nuclear plants 592
Uranium ore reduction 125
Vacuum welding by electron beam 272
Valves from Palatine Tool & Engineering (Surbiton) Ltd 285
Welding—special issue May
Welding aluminium and its alloys 215
Welding boom for Hunterston heat exchangers 608
Welding industry—buyers guide 227
Welding, low temperature—Eutectic Welding Co Ltd 76
Welding magnesium alloys 217
Welding problems in nuclear energy 207
Welding techniques for the rarer metals 219
Why Japan chose British 407
Wigner release at Harwell 230
Windscale—3rd report 373
ZETA 50, 106
ZETA oscilloscope—A. E. Cawkell 331
Zirconium production—William Jessop & Sons Ltd 73

BOOKS REVIEWED—titles

Actividades nucleares en el mundo 519
'Analar' standards for laboratory chemicals 35
Atom and the energy revolution, the 382
Atomic Energy 612
Atomic energy in agriculture 131
Atomic terminology 612
BEAMA catalogue—4th edition 248
Behaviour of metals at elevated temperatures 131
Brighter than a thousand suns 335
Centrales nucléaires, les 35
Chemistry of the rare radioelements, the 456
Chancen in der Atom-Wirtschaft 519
Communications and electronics buyers' guide, who's who and reference book 456
Compressors and vacuum pumps and their lubrication 612
Conference on extremely high temperatures 564
Corrosion and wear handbook 248
Cosmic radiation, the 293
Effect of surface on the behaviour of metals 456
Einfuhrung in die messetechnik der kernstrahlung und die anwendung der radioisotope 565
Engineering materials handbook 248
Euratom: Analyse et commentaires du traité 456
Guide to nuclear energy 335
Hot laboratory equipment 564
Junction Transistor and its applications, The 612
Kempe's Engineers' Year Book for 1958 293
Kerninduktion 382
Metallurgy of the rarer metals, no 2 zirconium 335
Nuclear chemical engineering 86
Nuclear power reactors 86
Nuclear radiation detection 382
Nuclear reactor experiments 456
Physik und Technik der Atomreaktoren 131
Radiation hazards and protection 565
Radiation shielding 86
Radioactivity measuring instruments 564
Radioaktiven elemente, die 35
Radioisotope laboratory techniques 293
Reaktortechnik 248
Scaling-up of chemical plant and processes, The 612
Separation and purification of materials 518
Sourcebook on atomic energy—2nd edition 518
Special relativity for physicists 612
Symposium on special metallurgy 612
Die technischen anwendungen der radioactivität 35
Thermal reactor theory 35
Uranium and thorium 335
Van Nostrand's scientific encyclopedia—3rd edition 518
